

## Enhancing Use of ICTs in NFE and Skills Training!

## Group Name: Future NFE Leaders!

### Members:

1. Mr. Sonam Tshering
2. Ms. Momotaz
3. Ms. Shamima Sultana
4. Shah Md. Rijvi Rony

## The Barriers:..... OURSELVES!

- Lack of Skilled Manpower
- Financial Crisis
- Low incentives for ICT Personnel
- Inadequate financial support for ICT development
- Poor Infrastructure
- Lack of awareness
- Lower literacy rate
- Rural-urban discrimination
- Low internet speed
- High internet charges
- Weaker language competencies
- Scarcity of proper planning
- Unavailability of ICT based material

## Role that we can play as NFE managers:

- > Update ourselves
- > Take action
- > Monitor
- > Go for campaign
- > Share your ideas and views with the stakeholders and learners

## Short-term Action Plan and Strategy:

Action Plan	Strategy
Develop Infrastructure	Revising existing budget and mobilize
Provide ICT training to the teachers & supervisors	Revising existing budget and mobilize
Introduce ICT based curriculum	Assessing need in the local level and finalizing it applying in the national level
Popularize the effective use of ICT in rural people's livelihood	Massive campaign at community and national level through mass media and collaborating with the TVET
Increasing service giving capacity of every CLC	Provide training and equipments
Introduce ICT based teaching-learning materials	Organizing workshop on material development at local and national level

## Long-term Action Plan and Strategy:

Action Plan	Strategy
Improve and supply high quality equipments	Fund hunting
Launching Community radio-based teaching learning program	Community mobilization, fund hunting and facilitating infrastructure
Building Skilled Manpower	Developing capacities by providing training, arranging seminars, workshops etc. and monitoring the development
Developing Common Resource Database	Deploy internal IT expert or outsource
Advocacy with the Govt. and International Agencies	Organizing meeting, round-table discussion etc.

Thank you!
