Group-4

Enhancing/Maximizing use of ICT in NFE and skill training

1.What should be the role of NFE Managers?

- ✓ Set up positive mind-set of the community & stakeholders
- ✓ Set up the physical infrastructure at community level
- ✓ To set up ICT cell
- ✓ ICT based curriculum development
- ✓ ICT based material development
- ✓ Capacity building of NFE master trainers & core trainers/trade trainers & facilitators
- ✓ To develop digital content both for literacy and skill training program
- ✓ Initiate award system among best performer
- ✓ To develop NFE-MIS and use accordingly.

2.What type of short term action can we initiate and how?

Action	Strategy
Promote positive mind set of the high level managers	Meeting/dissemination of report
To set up ICT cell	Identify skilled man power and recruit them.

3.   What type of long term action can we initiate and how?

Action	Strategy
Set up the physical infrastructure at community level	Coordinate with the locality for setting up the required facilities (PPP). Prepare budget for procurement & supply of ICT equipments
ICT based curriculum development	Carry out need assessment.
ICT based material development	Arrange workshop for the local experts
To develop teacher/facilitator led digital content both for literacy and skill training program	Use available local pictures, & videos
Initiate award system among best performer	Set criteria Monitor performance of the centre. Identify the best and award prize.
To implement NFE-MIS as required	Need based.

THANK YOU ALL
